NATIONAL SEMINAR ON

"Impact of ICT in Libraries"

Sponsored by

UGC, New Delhi

3th-4th November 2012

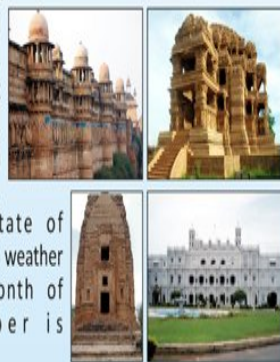

COLLEGE OF LIFE SCIENCES

Cancer Hospital & Research Institute Campus,
Gwalior 474 009 MP

ABOUT GWALIOR

Gwalior is a city in Madhya Pradesh, India. Gwalior is fairly well connected to other parts of Madhya Pradesh and India with national and state highways. The Agra-Bombay national highway (NH3) passes through Gwalior, connecting it to Shivpuri on one end and Agra on the other. The city is connected to the Jhansi by the National Highway 75, towards the south of the city. It is famous for Gwalior Fort which has exchanged hands many times. From the Tomara's in the 8th century, it passed on to the Mughals, then the Marathas under the Scindias (1754), followed briefly by Lakshmi Bai of Jhansi, Tatiya Tope and the British and also

famous Teli kā Mandir, Jain rock-cut sculptures, Gurudwara Data Bandi, Scindia state of Gwalior. The weather in the month of November is pleasant.

ABOUT COLLEGE OF LIFE SCIENCES

Since the CLS came into existence in 1990 with the intent to impart quality education in the field of Life Sciences and to equip students with knowledge and skills that would enable them to make a meaningful contribution to own self and the society, College offers M. Sc. and Ph.D. programs of study leading to Masters' and Doctoral degree in Microbiology, Biochemistry and Biotechnology. College has permanent affiliation to Jiwaji University, Gwalior and is recognized Research Center for Ph.D. The College has also started courses at undergraduate level (B.Sc) in Industrial Microbiology, Biochemistry and Biotechnology in the year 2005. Taking advantage of Cancer Hospital and Research Institute as sister Institute, College has also opened door to the students who wish to make their carrier in Paramedical subject. These courses are Medical Laboratory Technology, X-Ray Radiography Technician and Ultrasound & CT-MRI.

ABOUT SEMINAR

We are happy to inform you all that College of Life Sciences is organizing seminar on "Impact of ICT in Libraries" on November 03-04, 2012. It is our privilege that Prof. J.N. Gautam Rector Jiwaji University Gwalior and also Professor in Library Science and Dr. B.R. Shrivastav Chairman College of Life Sciences and Director Cancer Hospital & Research Institute, Gwalior are patronizing the seminar.

Developments in ICT have made significant impact on all spheres of human life. The impact has been rather prominent in case of service activities such as banking, health, transportation, education and libraries. Benefits of use of ICT in services can be broadly explained in terms of 4 Es, namely economy, ease, extension (or expansion) and efficiency.

For the Libraries, ICT's has tremendously changed the Management of Resources or House Keeping Operations as well as the way services are delivered. While general IT application tools and Integrated Library Management Systems are largely used in housekeeping operations, like acquisition, cataloguing, circulation control, serials control etc; Internet has been used extensively as a resource as well as a tool to deliver the Library and Information Services (LIS). In this lesson we will study how ICT has had impact on delivery of LIS.

In the specific context of LIS, one of the implications of use of ICT is that Libraries can reach out globally to provide their services 24-hours a day in very cost effective manner. ICT has enabled users to avail many services without any human intervention, the role of the role of LIS professional is changing from an intermediary to a facilitator and enabler. In this Unit we have grouped the ICT enabled services into two categories as follow:

1. ICT enabled conventional LIS, that can be delivered more efficiently through use of ICT, and 2. New Services, which have been made possible due to developments in ICT.

Seminar Objectives

- Create awareness and provide a platform for exchange and sharing of knowledge and skills among academicians, LIS professionals and other knowledge based professionals.
- Offer an opportunity to put forward best practice, innovative plans and process, debate on topical issues, present ideas.

Who Should Attend

- Academicians
- Information managers and librarians
- IT Professionals
- LIS research Scholars and Students

CALL FOR PAPERS

The contributors can send their papers on any of the themes and sub themes besides any topic of their interest relevant to the themes or sub-themes which are stated as under.

- ICT Challenges to LIS professionals.
- Digital Library
- E-Learning and E-Publishing
- Trends in LIS
- Consortia management Guidelines for contributors
- The authors can send their papers as an e-mail attached on cls.clsiict12@gmail.com by the date announced.
- The original papers submitted should be typed on MS Word with proper citation as IEEE format. The text should be typed single-spaced, A4 page size, 12 point font size, Times New Roman font type, in word format. The word limit for each paper is 4,000 words. All papers should be written in English/Hindi for acceptance in the Seminar presentation.
- Authors should send the copyright form duly signed by them declaring that the paper is original and has not been published anywhere.
- All accepted papers will be published in the Seminar proceedings, provided the paper is presented in person by the author/co-author.
- The text of conference paper must comprise: Title of the paper, Name(s) of author/s, their Institution, city and country. Abstract of approximate 200 words, summarizing the presentation along with key words, full text with proper citation and references.
